1. I am over 18 years of age, of sound mind, and otherwise competent to testify.
2. In 2003, I obtained a Technical Certificate in Law Enforcement from the Delaware Area Career Center in Delaware County, Ohio. Since that time I have been employed in various positions relating to private security and investigation. Those positions include hospital security at Nationwide Children's Hospital in Columbus, investigation and security at various HUD properties in and around the Columbus area, and private security services. I am presently applying for a Private Investigator license through the Ohio Department of Public Safety.
3. Since 2016, I have performed investigative services in and around the Columbus, Ohio area for the law firm Kisling, Nestico and Redick ("KNR") as an independent contractor. I am paid a flat rate for all services requested by KNR on a given case assigned to me.
4. When I am assigned a case to investigate on behalf of KNR, in addition to meeting with prospective client to obtain a signature on the KNR contingency fee agreement, I also obtain signature on patient authorizations or Medicare "Proof of Representation" forms, obtain background demographic information on the client, identify vehicle and insurance information, interview the client and obtain a narrative about the collision and their medical history and treatment, review the Ohio Traffic Crash report pertaining to the incident, identify the responsible party and any potential witnesses to the crash, obtain copies of any medical insurance information in the possession of the client, take photos of the client's vehicle when available and photos of any visible physical injuries, and collect and document any further information to pass along to the assigned attorney at KNR.
5. After the initial investigation is concluded, I maintain contact with most KNR clients to facilitate communication with the KNR attorney and staff, follow up with the clients regarding their medical care, obtain any further information necessary, pick up and deliver records and documents for KNR, and perform any additional services requested.
