I think the best thing to do here is determine what the best course is to get our quantum meruit lien and expenses paid. Do we need a fire letter to get that or can we lien the file with the verbal termination?

This is a verbal firing I got today.

We got the case on direct mail on 7/22/13 for an MVA on 6/24/14. No referral was made because the client said she was following up with an orthopedic for some type of non-specific back injury.

This client is firing us because she says they already hired a lawyer before they got us. She will not say who it is. The fiancée is the driving force and chimes in every time I try to talk with the client. Any attempt I try to make to cool this guy off results in him saying he will call the police on us if we continue to pursue the claim.

Both of these people seem mildly retarded (I'm not saying that jokingly). They hired us on 7/22 for a 6/24 MVA on a direct mail referral. At the outset, the clients made very clear that they needed help getting a loan. They monopolized Jodi's time the day after the signup and we got them a loan of \$500 from Liberty Capital. Ever since, they began backtracking on using us for representation purposes. All attempts to gain some sort of client control have been failures so far (we have 43 needles notes on this file and it's been open for 7 days).

As you are aware, Rob approves chiropractor reductions. If you ask me if he calls a certain chiropractor or if you do and the answer is you are responsible for the call, you should still give Rob the breakdown to approve PRIOR to contacting the chiropractor.

We are starting to run a commercial for Granuflo / Naturalyte on Monday August 19<sup>th</sup>. Attached is the following information:

- Commercial that we are running starting on Monday in the Columbus area
- Fee Agreement
- Authorization Form x 2 (client needs to sign both if possible, the letterhead version needs to be signed at a minimum) / they only need to sign and date, no need to fill out the top portion
- Criteria (the intake MUST meet the criteria listed, please read this form) /
- Intake Example, please use this layout to create our intake in Needles, I will email the case type on Monday AM.
- Questionnaire

All of the KNR investigators have the fee agreement and authorization forms loaded on their iPads so everyone should be ready to go. Tom Fisher, Paul Hillenbrand and Wes Steele are aware of the possible volume for these sign ups in the Columbus area. I will discuss in further detail with Paul Steele this weekend. These intakes will be done at the Akron office (intake and attorney).

Investigators: I am awaiting self addressed stamped envelopes from Spangenberg Shibley & Liber LLP. Once I receive these (hopefully Tuesday at the latest) I will mail the envelopes and copies of the questionnaire to you. You will just need to leave this questionnaire with the client as well as a self addressed stamped envelope and kindly ask them to fill this out and simply drop in the mail as the postage will already be on the envelope for their convenience.

Intake: There is an intake lead information sheet attached, this will be your cheat sheet for doing the intake in Needles. Please print it out as well as the Criteria sheet so that you are familiar with this campaign.

Please note that you can also find all of these attachments on the s drive

Please do NOT tell anyone who calls for him that he is out of town. Just simply say he is out of the office and take a message. Sarah and I should both be cc'd on all emails and faxes. If an objective intake calls, please give to prelit attorneys. If you do NOT sign the case, please let me know immediately.

All settlement approvals and chiro reductions should still go to Sarah and she will scan and email.

The Columbus chiros are VERY needy and demanding. I gave you all of Antonio's cases....these cases need to be settled ASAP.

They cannot sit and collect dust....this will harm our relationships.

Paul deals with this on a daily basis.

If you do not have time to settle these claims I will assign them to someone else.

We are having a HUGE issue locating accident reports. When you are doing the intake it is imperative that you ask the person where the accident happened.....city, intersection, etc. Also, police department and ask if they have a police report number. We get thousands of reports and if we do not have it the intake department has to either call or fax a request or they pull it online.

I've been reviewing all new cases and a MAJOR issue I see is that we aren't getting enough info at the time of intake and that causes a massive amount of investigative work and makes us look stupid to the client.

I didn't think anything of it. Floros says that not infrequently and it hasn't been an issue before. My feeling on it is that if they are <sup>3</sup>hesitant<sup>2</sup> but have already signed up, they can't be that hesitant about it and I do not want to annoy them before they get comfortable.

I thought that the conversation I had with him initially was a good conversation, informative, cautionary, etc., and we ended it well, and floros was being overly cautious because the guy was a seemingly educated individual who maybe didn't buy into his normal bullshit.
